Berlin, Feb. 26.—Yesterday's riot i and also weighed up by the newspa-pers, with the result that while the of-licial report attempts to belittle the afbreak was a serious exhibition of the state of mind in which the large masse of the people find themselves. The exiftersoon would have convorted the riot into a revolution in Berlin.

The disturbance originated at a meet

A WOMAN MURDERED FOR HER MONE

and Secretly Buried at Night by Mer bers of Her Family-The Participants in the Crime all Known and Located.

CLAYTON, Mo., Feb. 25.-A ma strange confession to Prosecuting At orney Mudd, of this county. Hisstory

"About twelve years ago there resided in Webster Groves a family which, to all outward appearances lived happily together. They enjoyed considerable prominence in the com munity and were highly respected by all. They lived up to or above the standard of the society, and it was known that the woman held the property from which an income was derived. When she was missed from society, and inquiries were made con-cerning her whereabouts, the other sembers of the family stated that she had gone to California for the benefit of her health. After a time the aunouncement was made that she had field in California. The story concerning her death was believed by the peo-ple and no more inquiries were made about it. After the reported death of the woman what they claimed to be her will was found, and her property was divided as provided for in it.

"The truth is: The woman did not go to California. She was killed with poison, which was sent out from the city for the purpose, and her remain were buried near the house, and after wards the spot was covered with a bed of rose bushes. When the ground sank, leaving the shape of the hole visible, it was filled up. I can, and will, point out the spot where the remains of the woman were buried.

"The family left Webster Groves and went to St. Louis, where they reside at present, and I suppose they are happy, unless they are troubled in mind as I have hear." nave been."

Mr. Mudd said he had sufficient con

fidence in the man's story to induce him to investigate it. He intended to go to Webster Groves and have the ground at the spot pointed out by the nan opened and ascertain whather or lot the remains of the woman had

been buried there.

Mr. Mudd said he was in possession present, but he refused to give the re-porter this information. He also de-clined to state whether or not the will of the murdered woman was probated it the probate court of St. Louis county.

DYRENFORTH'S REPORT. ery Modest Claims for the Success

His Efforts to Induce Rainfall— Only a Beginning.

Washington, Feb. 26.—In compli-ince with a resolution of the senate Secretary Rusk yesterday sent to that body a report of Gen. R. Dyrenferth, on the artificial rainfall experiments which he conducted in the arid region as a special agent of the department of agriculture. The report is voluminous and illustrated with photographs applicable to the subject matter. I reats of the subject from the begin treats of the subject from the begin-ning, outlining the history, origin and theories of the artificial rainfall idea, and gives in narrative form a de-tailed account of the various experi-ments conducted, the results of which have been published in the news-papers. In addition to the reports of the chiefs of the several experimental parties, the report contains a state-ment from Eugene Fairchild, a mem-ber of the party, in which he says: "The expedition has completed its work for the season and the question successful?" As a member of the expedition I am convinced that the ex-periments have been entirely successul, and furthermore that the scheme s practicable; the cost being very small as compared with the benefit gained. A tax of a few cents per ner ould cover the expense of operation xtending over the entire dry season.

Opinions given by spectators are al included in the report. One of these, Dr Taylor, says: "I consider the experiment highly successful and sincerely hope that further experiments

casely hope that further experiments may be tried in this region (San Diego.). Oen. Dyrenforth sums up as follows: "The experiments which have been made do not furnish sufficient data rom which to form definite conclusion

or evidence on which to uphold or con-demn the theories of the artificial production of rainfull by concussion Experiments extending over a period of only a few months can scarcely be suf detent; it is only by a large number of tests that definite conclusions can be reached; and if then it be ascertained o be a certainty that rainfall will I aduced by explosions, that such produced to an ar so as to effect precipitation at a pre-letermined place. What has been done so far is altogether preliminary; but with the benefit of the experience gained, I hope the subject will be pursued. At the risk of being tiresome, have embodied in my report the min-utest details in order that others who may follow me in this line of inquiry may be fully advised as to what has preceded. It may be said, however, that the three principal tests which have been made, namely, at the "C ranch, Midland; at El Paso and at San Diego, Tex., (all under conditions much more unfavorable than need be encountered in attempts to produce rainfall) supply testimony which would

seem to point to this inference. First. That when a moist cloud is present which, if undisturbed, would pass away without precipitating its moisture, the jarring of the cloud l moisture in suspension to agglomerate and fall in greater or less quantity ac-cording to the degree of moisture of the air about the cloud.

Second. That by taking advantage of these particles which frequently occur in draughts and in most, if not in all, sections of the United States, where the precipitation is insufficient for vegetation, and during which the atmos pheric conditions favor rainfall, without there being actual rain, precipitation may be caused by concussion. Third. That under the most favora ble conditions for precipitation, condi-

tions which need never be taken in

operations to produce rain, storm con-ditions may be generated and rain be induced; there being, however, a waste-ful expenditure of both time and material in overcoming unfavorable con-

Gen. Dyrenforth says that in prose cuting the investigations there was total expenditure, allowing the regular rates and prices for all transportation and other expenses of the party, and

the material (some of which re

on hand for future experiments) of about \$17,000.

In closing his report Gen. Dyren-forth suys he disclaims each and every statement published concerning the experiments as appearing from him, and premature and undigested statements by any numbers of his party were un-

FRIDAY EVE., FEB. 26, 1892.

George S. Bliss, of Philadelphia, has been arrested and is held in \$5,000 bail for sending a dun on a postal card to a person who owed him. Mr. Bliss has discovered that he violated the United States postal laws, and that in his case lightcoragon is not bliss.

Mr. Cleveland is no longer a possibility. His selection as the Democratic standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be, on the part of the National Democratic Standardbearer, if snoth a thing were, under the circumstances, conceivable, would be elected; and we are so sure of his own good sense, as well as of his dignity of character, that we have no idea that he will allow his name to go before the National Democratic Convention.

States postal laws, and that in his case ignorance is not bliss.

Does the fact that Altgeld, of Chicago, is sure to be the Democratic nominee for governor, mean that the Republicans ought to nominate a good man from Chicago ulso? If it does, Republicans had better make up their minds according to the consolidation of all our forces to gleent a Democratic Convention. To the solution that the form of the consolidation of all our forces to gleent a Democratic Convention. To the solution. To do so would be to submit himself to four months of wrangle, ruinous self to four months of wrangle, ruinous self, dragging his great name and career through an embittered, and a more or defeat, in the event of his nomination by the Convention, at the policy with the consolidation of all our forces to get the fact that Altgeld, of Chicago, the four months of wrangle, ruinous self to four months of wrangle, ruinous self, dragging his great name and career through an embittered, and a more or through an embittered and the convention of the four months of wrangle, ruinous self to four months of wra had better make up their minds accordto elect a Democratic President next ingly and do it promptly. The Political Sky Clearing.

John P. Altgeld is almost secure in the omination for governor by the Demorate. The Cook county primaries held l'uesday were almost unanimously for im. Every delegate except those from natracted for Altgeld. This disposes of ler. Black's candidacy so effectually that the Democratio bosses have gone to work to smooth down his feathers by ffering to give him the nomination for congressman-at-large. This leaves only Andy Hunter and Altgold in the field as ontestants for the Democratic nominanoc, with the chances one hundred to

It will be well if the Republicate will bear this fact in mind and act accordingly. The party has quite a number of and dates. They are, as a rule, good men, but it must be admitted that some of them would be stronger before tho people than others, and in view of this it occomes the duty of every Republican to lrop the matter of personal friendship for candidates and seek the man who can beat meet and defeat the objects of Aitgeld's selection. The Rapublican candilate who cannot hold his own in Cook county will have no show of election, and to nominate a candidate on sentiment, roundless of the well known fact that They have a weak heart, causing short

regardless of the well known fact that Altgeld must be met in Cook county, where he expects to make his gains, would be supreme folly.

A few ollice holders may dictate a nomination, but a few office holders can no longer dictate an election. They have done that sort of thing so long that the party has been materially injured by it, and it is time that a stop be put to it. The source of the county of the county has been materially injured by the and it is time that a stop be put to it. The sourse still open to the Republicans is to go to the state convention uninstructed, and after careful consideration nominate the man who is best equipped to bring success to the party. If that is

Sam Houston's Land. Rev. C. J. E. Haterine of Galosburg, a Soundinavian, has just completed the purchase of 16,000 seres of land in Calhour county, Texas, with the view of lo cating a Swedish colony there. One league of this land was once owned by Sam Houston, and within the last deondo has been in literation, and during the contest the following letter written by Honston was put in evidence

"HONTSVILLE, TEXAS, Nov. 25, 1852.—

He was entitled to a league and a labor, amounting to 4605°, acree, but whether he drew it or not I cannot inform you. If he did not, and I am inclined to think he did not, you cannot obtain it. I would advise you to write to Hon. E. M. Pease, of Brazoris, an honorable and able lawyer, for information on the subject, and en gage him to attend to the business if he gage him to attend to the business originating from a torpid liver or impure blood yield to it. gage him to attend to the business if he will undertake it; if not, come and see to the matter in person. I think it is worth while to do so. I have not engaged in land matters myself, and whatevar I have done has been grataitenely. You can mention incidentally to Mr. Pease that I referred you to him. I do most sincerely hope you may succeed. Your claim is not stale and can not be debarred. I loved Gen. Arnold as a brother and cannot cease to feel aminterest in his offspring. ONLIN One Week Mere!

End of Ferriss & Sopham's Great Clearance Sale Approaches.

Three weeks of February have passed and gone. In those three weeks the Ferriss & Lapham Shoe Store did more business than in the entire month of February, 1891, and last year the February business was thought to be something to be proud of.

The explanation of this unprocedented increase is not hard to find. The Great CLEARING SALE that was inaugurated in January has proved to be the biggest kind of a success, and although every department

The Prices were Put Down to Such Low Figures

that the other dealers had to almost suspend business for a month. Ferrise & Lapham haven't made any money on the goods, but the boots and shoes have been converted into cash and the people have had a benefit. So that nobody is kicking except the rival dealers.

Figgs. Statistics show that it costs three cents and a haif to carry a passen ger on a street car? Diggs. Perhaps that a the reason the Broadway carrespondent for one? Now this is to remind the people that this Great Clearing Sale will last only one week more, as the annual invoice is taken March 1, and all winter stock must be cleaned out by that time. There will be some rare bargains this week for the prudent purchasers, and the earlier you come the better assortment you will find.
